I wish to know if there were any ten cent pieces coined in 1879. I have tried at a number of places to find one, or get information concerning the mater. It is going to a big place to get knowledge about a small matter but I don't know where else to apply for it & I want the ten cent piece for a special purpose badly.

If the "Mint" can furnish me the desired knowledge I shall be very grateful.

Respectfully-
